Coyote Canyon should be receiving approximately 1.7 million and would be used for Greater, vehicle, scholarship, housing renovation, roads, PEP .

The question here is "should we have something that will last"? Will need to submit (4) four proposals, water line extension for 100 families, chapter parking lot, environmental clearance, archaeological clearance. I want to do the right projects that will last a long time.

Chavez John mentions to Mr. Curley, CLUPC is responsible for projects and chapter officials responsible for implementation. Our Land Use is certified in 2006 and was told our chapter is not certified, needs recertification.

Evelyn Morris congratulates Ansley Curley.

Coyote Canyon chapter needs a lot of help. Reaffirm to hire the accounting clerk and CSC position. We are back at square one, there is no record keeping and there is a gap between the chapter officials and administration. The waterline is pretty much in process. We really need the community members to put in their input as to how to utilize the fundings received. We really need to work as a team and help us fill the positions at Coyote Canyon Chapter. Olin Kieyoomia really brought chapter back up from October 2021 to November 2022.

Dianna – has not communicated with MC Baldwin, she will start to contact MC again will update next CLUPC meeting.

Chavez John – spoke with Sone Franklin, Sone was told not to attend our CLUPC meeting because our chapter needs recertification. Chavez will write the Sone's supervisor.

Geraldine Billy – What happen to the resolutions that were done?
